## Drop everything and go buy one now!

So, years ago I bought a rower, and having nothing to base it against, I used it, I had no idea how horrible it was until I got this Hydrow. I got Hydrow last week and WOW! I have been using it a couple of times a day! Now, that is odd for me, because I haven't been working out for a long long time, and now I am working out 2x a day using the Hydrow. The experience of watching the trainers in the water, the scenery, how smooth and fantastic this rower feels, it all adds up to wanting to be on it. I also find myself watching the trainers bodies and trying to match my movements with theirs the entire time. I am so focused on keeping pace and matching movement that the time just flies by. I am so happy I took a chance on Indiegogo and purchased this. I feel like a new person, with an outlet now where I can workout, not be in pain, want to do it and enjoy the experience. There is also a members group on FB and it has been great. This is the best thing I could have done for myself!

## I am LOVING my hydrow

I am LOVING my hydrow! I already have a peloton bike in my home, and feel guilty that I haven't been giving it any attention because a workout on hydrow is fun, engaging and peaceful because you feel like you're really rowing out on the water. We have been doing the weekly racing competitions and it's really motivating and fun, and love that every row helps me work towards a goal of providing clean water to people in need!

## Excellent product

Excellent product. The innovation is phenomenal. Looking forward to different bodies of water added to the library.

## Hydrow provides a total body workout...

Hydrow provides a total body workout with great instructors, music and the on water locations are incredible. Feels like you are actually on the water! As to the machine itself, it is the best rower - smooth and quiet.

## Hydrow exceeded my hopes!

Hydrow has totally exceeded my expectations. The variety of available workouts and instructors means I always have an interesting workout available right in my house without having to get dressed and drive to a gym. I can choose a inspiring instructor led workout set to music, work on my form, or just free row and enjoy the pretty scenery they've shot. Whatever workout mood I am in, I've been able to find something appropriate and engaging.

## great instructors, killer design

From the expert guidance of its phenomenal trainers to the engineered smoothness of the rower itself, there is no better all body workout than the Hydrow. In as little as 20 minutes, you can work up a sweat and feel like you just killed a workout while gliding down the Charles. The Hydrow definitely compliments any workout routine and the fact that it's such a sleek design, doesn't hurt.

## Hydrow Exceeded my Highest Expectations

I was an early enthusiast for the Hydrow promise and signed up on the indiegogo as soon as I could. As a person that appreciated the profound impact that rowing can have on ones life saw the hydrow could bring those benefits to many more people and give me the ability to make it part of my everyday routine.

They fully delivered on the promise. The machine is high quality and gives me a great workout, the videos and trainers provide and immersive experience that brings me back to the Charles from 40 years ago and I have seen my teenage daughter embrace rowing thanks to hydrow. Bravo, cant wait to see what comes next!
