### Premium H13 HEPA Air Filtration System

Zogics NSpire PRO Premium Air Filtration System utilizes the medical-grade power of H13 HEPA filtration to effectively remove air pollutants and particles from your home or facility.

### Smart Air Pollution Indicator

A visual smart air pollution indicator displays real-time air quality for quick reference. The "blue" ring indicates excellent air quality, while "green", "yellow", and "red" rings show the air needs to be purified.

### Medical-Grade Double H13 HEPA Filters

The NSpire PRO's double H13 HEPA filter design maximizes air purification by using two sets of medical-grade HEPA filters. This high-powered filtration system increases air flow and purifies 323 sq/ft in only 6 minutes.

### Specifications

SKU:	NSP-HEPA-PRO
Voltage/Frequency:	AC 110~120V, 50/60Hz
Power:	85W
Treats Airflow:	Up to 1,000 sq/ft
Dimensions:	15.75" x 15.75" x 26.3"
Weight:	30.8 lbs

Zogics NSpire Pro Premium H13 Air Filtration System is sized to treat the air in rooms up to 1000 square feet, providing cleaner, fresher air wherever it's used.

Five separate filters, including a H13 HEPA filter, help remove dust, allergens, smoke, gases, pollen, bacteria and viruses from the air, improving the air you breathe. Easy to use controls and an included remote control allow you to control the level of filtration in your space. The system also features an automatic function that smartly senses the level of pollution in the air and adjusts accordingly.

Speed mode is useful for tackling spaces that are smoke or allergen-filled, and at night, the system continues to work while set at ultra-quiet sleep mode.
